## MEMORANDUM

---

TO: Legislative Oversight Commission on Education Accountability

FROM: Chancellor James L. Skidmore

DATE: January 8, 2006

RE: HEPC and CCTCE Series 20, Authorization of Degree Granting Institutions

---

In December 2004, the Higher Education Policy Commission and Council for Community and Technical College Education completed a report for the Legislative Oversight Commission on Education Accountability on current policies relating to the licensing and oversight of both public and private degree-granting and non-degree granting entities providing postsecondary education programs or courses within the state or from locations outside the state through distance learning or any technology methods. One of the major conclusions in the report was the need to strengthen Series 20, *Authorization of Degree Granting Institutions*, to give the Commission and Council greater oversight of the process of authorization for external higher education institutions seeking to operate in West Virginia.

While the Commission has responsibility for authorization of higher education institutions offering courses or degree programs above the associate level to operation in West Virginia, the Council has responsibility for colleges which offer courses and degree programs not above the associate level. For those colleges and universities desiring to operate in West Virginia which offer associate degree and higher level degree programs, the Commission in collaboration with the Council exercises authority.

Series 20 has been revised and strengthens the oversight authority of the Commission and Council for higher education institutions desiring to operate in West Virginia.

**Summary  
Legislative Rule  
West Virginia Higher Education Policy Commission  
and  
West Virginia Council for Community and Technical College Education**

**Series 20  
*Authorization of Degree Granting Institutions***

Series 20, *Authorization of Degree Granting Institutions*, is the rule by which the Higher Education Policy Commission exercises responsibility for the approval of any higher education institution which desires to offer programs or courses of higher learning in the State of West Virginia. This rule has been (1) converted from a procedural to a legislative rule and (2) modified to give the Commission greater oversight of the process of authorization for external higher education institutions seeking to operate in West Virginia.

The Council for Community and Technical College Education has proposed a companion rule to Series 20. The Community and Technical College System rule has essentially the same process for approval of external institutions that desire to operate in West Virginia, but the Community and Technical College System rule applies only to two-year institutions.

While the Commission has responsibility for authorization of higher education institutions offering courses or degree programs above the associate level to operate in West Virginia, the Council has responsibility for colleges which offer courses and degree programs not above the associate level. For those colleges and universities desiring to operate in West Virginia which offer associate degree and higher level degree programs, the Commission in collaboration with the Council exercises authority.

Major changes in the two rules are as follows:

1. Conversion of the current rule from a procedural rule to a legislative rule. Such modification gives provisions of the rule the force of law.
2. Inclusion of new criteria for award of initial state authorization (Section 9.3; CCTCE, 8.3). An institution seeking to locate in West Virginia must meet certain essential conditions or determined by the Commission/Council in addition to holding appropriate accreditation status. The addition of this section is, perhaps, the most significant change in the rule. It strengthens the Commission's role in the processing of authorization requests.
3. Continuation of oversight for institutions offering courses or degree programs above the associate level. Oversight authority for institutions offering course or degree programs at the associate level only rests with the Council for Community and Technical College Education.

4. The definition of “physical presence”, one of the conditions which is a determinant of Higher Education Policy Commission/Council oversight authority, has been expanded (Section 3.8).
5. Any West Virginia independent college which is required to modify its accreditation status with the Higher Learning Commission of the North Central Association as the result of a change in ownership or change in operational status to a for-profit institution must seek Higher Education Policy Commission approval for the change(s) (Section 4.1.1).
6. An institution desiring to locate in West Virginia must first register with the Secretary of State’s office (Section 6.1).
7. The surety bond provision is revised to allow for flexibility in the bond amount from \$10,000 to \$50,000 (Section 7.4).
8. An institution seeking initial authorization must pay an application fee of \$2,000 (Section 10.7.1; CCTCE 9.7.1).
9. Documentation review procedures for the processing of institutional authorization requests are specifically delineated and permit the Commission staff to conduct a site visit (Section 10.7.1.3; CCTCE 9.7.1.3).
10. The bases for a Higher Education Policy Commission decision to terminate authorization have been expanded and are specifically delineated (Section 11.2.2; CCTCE 10.2.2).
11. Sections on establishment of guidelines for advertising and distribution of promotional materials (Section 14; CCTCE 13) and institutional appeal of Higher Education Policy Commission/Council for Community and Technical College Education decisions (Section 12; CCTCE 11) have been added.

Prior to offering any course or degree program above the associate level in the State, the entity shall apply to the Commission for authorization to operate in the State. The Commission shall consult with the West Virginia Council for Community and Technical College Education when an entity desires to offer associate level programs in addition to courses and programs above the associate level. The provisions of this rule shall also apply to any course or programs delivered in the State by an out-of-state institution via distance education-based instruction if the institution will have a physical presence in the State.

In addition, the institution has physical presence in West Virginia if it delivers, or plans to deliver, instruction in West Virginia, and receives assistance from any other organization within the state in delivering the instruction, such as, but not limited to, a cable television company or a television broadcast station that carries instruction sponsored by the institution.

An institution that employs an agent or representative in West Virginia and delivers instruction by any means within the State shall be regarded as a private college or university and shall be authorized on the same basis as any other such institution.

## **4. EXEMPTIONS**

4.1 The provisions of the rule shall not be applicable to the following institutions:

4.1.1 Any existing institutions of higher education approved to operate in West Virginia prior to July 1, 2006. Should any such institution, as the result of a change of ownership, or operational status from a non-profit to a for-profit institution, be required to modify its accreditation status from the Higher Learning Commission of the North Central Association, such institution must secure approval for the change(s) from the Higher Education Policy Commission.

4.1.2 Correspondence, business, occupational and trade schools which

- (a) offer nothing higher than a specialized associate degree,

4.2 Each institution of higher education which claims to be exempt under the provisions of this section must file with the Commission such information as may be required by the Commission to determine whether the institution is exempt. If the Commission determines that any institution is not exempt from the provisions of this rule, it shall notify the institution in writing with the reasons for the determination.

## **5. PROHIBITIONS**

5.1 No person, firm, association, institution, trust corporation or other entity shall use in any manner within West Virginia the term "college" or "university" or any abbreviation thereof, or any words or terms tending to designate it as, or create the impression that it is an institution of higher education, unless it shall have obtained the appropriate approval as provided in this rule.

5.2 This section shall not apply to any entity which used the term "college" or "university" prior to July 1, 2006.

5.3 This section shall not apply to individual proprietorships, associations, co-

partnerships or corporations which use the words "college" or "university" in their training programs solely for their employees or customers, which do not offer degree granting programs, and whose name includes the word "college" or "university" in a context from which it clearly appears that such entity is not an educational institution.

## **6. AUTHORIZATION TO OPERATE**

- 6.1 An institution locating in West Virginia must register with the Secretary of State's office prior to making any application to the Commission for authorization.
- 6.2 All private colleges and universities, private proprietary schools and seminaries or Bible colleges offering any degree above the associate level shall register with the Commission, shall meet the authorization criteria, and shall be granted authorization prior to offering any program of instruction, credit, or degree; opening a place of business; soliciting students or enrollees; or offering educational support services.
- 6.3 All private colleges and private proprietary schools, with the exception of correspondence, business, occupational, and trade schools as defined in Series 35, *Correspondence, Business, Occupational and Trade Schools*, of the Council for Community and Technical College Education, offering degrees not above the associate level shall register with the Council, shall meet the authorization criteria, and shall be granted authorization prior to offering any program of instruction, credit, or degree; opening a place of business; soliciting students or enrollees; or offering educational support services.
- 6.4 Private colleges and universities and private proprietary schools offering associate level degrees and degrees above the associate level shall register with the Commission, shall meet the authorization criteria, and shall be granted authorization prior to offering any program of instruction, credit, or degree; opening a place of business; soliciting students or enrollees; or offering educational support services. Granting of authorization of such institution is the responsibility of the Higher Education Policy Commission in consultation with the Council for Community and Technical College Education.
- 6.5 Private colleges or universities and seminaries or Bible colleges shall be authorized under the provision of this rule. Private proprietary schools exempted under the provisions of section 4 of this rule shall be governed by the provisions of Title 135, Series 35, *Correspondence, Business, Occupational and Trade Schools*, administered by the Council.
- 6.6 Authorization is limited to those institutions that deliver instruction in West Virginia and have a physical presence in West Virginia.

## **7. GRANTING OF AUTHORIZATION AND BOND REQUIREMENTS**

- 7.1 Authorization shall be granted upon presentation of adequate information by the postsecondary institution seeking authorization to the Commission. As the first step toward authorization, representatives of a seminary or Bible college or a private college or university shall consult with the Director of Academic Affairs or

designee prior to submission of required documentation. No private college or university shall operate until it meets the essential conditions established by the Commission and defined in this rule.

- 7.2 No private college or university shall operate until its accreditation is documented or its potential for accreditation is established and accepted by the Commission. Institutions authorized to operate pending full accreditation shall pursue full accreditation continuously and shall make reasonable and timely progress toward accreditation in order to retain authorization.
- 7.3 No seminary or Bible college shall operate until the religious nature of the institution is documented and verified by the Commission.
- 7.4 Before an institution of higher education is authorized under the provisions of section 10.7 of this rule, a surety bond must be provided by the institution. The obligation of the bond will be that the institution, its officers, agents and employees will faithfully perform the terms and conditions of contracts for tuition and other instructional fees entered into between the institution and persons enrolling as students. The bond shall be issued by a company authorized to do business in the state. The bond shall be to the Commission in such form as approved by the Commission and is to be used only for payment of a refund of tuition and other instructional fees due a student or potential student. The amount of the bond shall be \$50,000 and shall be renewed annually. The Commission, if it deems appropriate, may reduce the amount of the bond if an institution has less unearned tuition than \$50,000, but in no event shall be less than \$10,000.

## **8. CRITERIA FOR AUTHORIZATION – SEMINARY OR BIBLE COLLEGE**

- 8.1 To qualify as a seminary or Bible college, an institution must qualify both as an institution of higher education as defined in section 3 of this rule and as a religious institution based on meeting each of the following criteria.
  - 8.1.1 Be a non-profit institution owned, controlled, and operated and maintained by a bona fide church or religious denomination, lawfully operating as a non-profit religious corporation.
  - 8.1.2 Limit the educational program to the principles of that church or denomination, and the diploma or degree is limited to evidence of completion of that education.
  - 8.1.3 Only grant degrees or diplomas in areas of study that contain on their face, in the written description of the title of the degree or diploma being conferred, a reference to the theological or religious aspect of the degree's subject area.
  - 8.1.4 Not market, offer, or grant degrees or diplomas which are represented as being linked to a church or denomination, but which, in reality, are degrees in secular areas of study.
  - 8.1.5 Have obtained exemption from property taxation under state law and shall

have submitted a copy of the certificate of this exemption to the Commission.

8.2 Additional evidence may be provided by an institution seeking to substantiate that the institution is a religious institution including:

8.2.1 Evidence that the institution holds at least pre-accreditation status with one of the following nationally recognized accrediting associations:

- (a) The Accrediting Association of Bible Colleges; or
- (b) The Association of Advanced Rabbinical and Talmudic Schools; or
- (c) The Association of Theological Schools in the United States and Canada; or
- (d) Other appropriate accrediting association recognized by the U.S. Department of Education and determined as appropriate by the Commission.

8.2.2 A statement of institutional mission clearly establishing the mission of the institution as solely religious, and curricula and degree, diploma, or certification programs that clearly support that mission singularly.

8.2.3 Other appropriate, substantial, evidence of qualification for state authorization as a seminary or Bible college.

8.3 An institution shall not be eligible for authorization as a seminary or Bible college if it offers degrees appropriate only for academic institutions, such as, but not limited to, Bachelor of Arts or Bachelor of Science, Master of Arts or Master of Science, Doctor of Philosophy, or other degrees typically offered by academic institutions, regardless of curriculum of course content, unless the degree title includes the religious field of study (e.g., "Bachelor of Arts in Religious Studies"). Institutions authorized as seminaries and Bible colleges also shall not offer degrees associated with specific professional fields or endeavors not clearly and directly related to religious studies or occupations. Examples of such degree titles are Bachelor of Business Administration or Master of Business Administration; Bachelor of Education, Master of Education or Doctor of Education; and Doctor of Psychology.

8.4 An authorized seminary or Bible college, its educational programs, its degrees and diplomas, and its honorary degrees, have no state approval or recognition status whatsoever. An institution operating under this authorization shall not state or imply by any means whatsoever that there exists any recognition by the state or by any agency or agent of the state of the education, documents awarded by the institution, or the institution itself, other than the institution's authorization to operate.

## **9. CRITERIA FOR AUTHORIZATION – PRIVATE COLLEGE OR UNIVERSITY**

9.1 A private college or university, under the provisions of this rule, is an institution which is "doing business or maintaining a place of business in the state of West Virginia" which offers courses of instruction or study wherein credits may be earned toward a degree in a field of endeavor. A publicly-supported college or

university in another state will be treated as a "private college or university" and will be authorized to offer courses of instruction toward a degree, degree credits, or degrees if it qualifies under the criteria for such institutions. An institution that employs an agent or representative in West Virginia and delivers instruction by any means within the state shall be regarded as a private college or university and shall be authorized on the same basis as any other such institution.

9.2 An institution seeking authorization to operate in West Virginia must meet the following essential conditions and accreditation standards established by the Commission. To apply for preliminary state authorization the institution must provide to the Commission full documentation that demonstrates fulfillment of the essential conditions and the accreditation standards.

### 9.3 **Essential Conditions**

9.3.1 Familiarity with accreditation and state authorization policies and procedures

The institution shall provide evidence that it is familiar with and understands accreditation procedures of the Higher Learning Commission of the North Central Association or other appropriate body and state authorization policies and procedures. The statement should indicate perceived strengths and weaknesses with respect to accreditation criteria and assess the capabilities of the institution in achieving accreditation status. It shall state the name of the accrediting association from which accreditation will be sought.

9.3.2 Statement of mission

A statement of mission shall have been developed, formally adopted by the institution's governing body and made public, which defines the basic character of the institution, including a brief description of the educational programs to be offered and their purposes, the students for which the programs are intended, the geographical area served by the institution (or the particular constituency it serves), and a description of how the institution will fit within the broader higher education community. The mission shall be appropriate to an institution of higher education and the institution must plan to award degrees. The mission statement shall be provided to the Commission.

9.3.3 Institutional organization

(a) A governing board that possesses and exercises necessary legal power to establish and review basic policies that govern the institution shall have been formally established. The board shall include among its members some who represent the public interest and are sufficiently autonomous from the administration and ownership to assure the integrity of the institution. The Commission shall be provided a list of the members of the board with a

- brief resume of each.
- (b) An executive officer shall be designated by the governing board to provide administrative leadership for the institution. This officer's name and title, and the address of the administrative office, shall be provided to the Commission.
  - (c) If faculty members are employed at the time the application is filed with the Commission, the faculty members themselves, their academic credentials (degrees, previous experience, etc.), and teaching fields shall be identified. If no faculty members have been employed, the institution shall describe the qualifications of the faculty that is to be recruited and the procedures that will be used to find and contract with faculty members.

#### 9.3.4 Degrees and academic programs

- (a) A degree shall be awarded upon successful completion of an educational program. The institution shall provide a list of the degrees it proposes to award.
- (b) The planned educational programs shall be compatible with the proposed institutional mission. The relationship shall be described in documents provided to the Commission.
- (c) The academic program proposed for offering shall be appropriately named and be based on fields of study recognized as appropriate for a postsecondary institution. Evidence shall be provided to the Commission that the fields of study upon which the academic programs are to be based are, in fact, so recognized. Such recognition, for example, could be demonstrated by the existence of professional literature in the field; the offering of similar programs in already-accredited institutions, generally; and by the existence of professional organizations related to the field.
- (d) The content and length of the proposed academic program shall follow practices common to institutions of higher education.

Documentation shall be provided to the Commission that lists requirements for each degree program including representative course syllabi specifying goals and requirements, course content, methods of evaluation, and bibliography.

The student-teacher ratio shall be reasonable at all times in keeping with generally accepted teaching modes for the subject matter. The institution must employ at least one full-time faculty for each major.

- (e) Any proposed undergraduate degree program shall include a coherent general education component that is consistent

with the institution's mission and appropriate to its educational programs. The undergraduate general education component shall be documented.

*General education is defined as follows:*

General Education is "general" in several clearly identifiable ways: it is not directly related to a student's formal technical, vocational or professional preparation; it is a part of every student's course of study, regardless of his or her area of emphasis; and it is intended to impart common knowledge, intellectual concepts, and attitudes that every educated person should possess.

- (f) Student access to all necessary learning resources and support services shall be provided.

Necessary resources and support services vary by type of program, but all require some use of library resources. Laboratories may be required for some programs. Support services such as academic advising, financial aid counseling, and support for special, targeted, constituencies may be needed. The institution shall describe the learning resources and support services that it will provide and state how they will be provided to students on a regular, dependable basis.

- (g) Distance learning instruction, when offered, should be considered part of the total program and be judged by criteria as used for sessions and courses offered by the institution in the regular academic year. Documentation shall be provided to the Commission that shows that academic standards for all programs or courses offered electronically are the same as those for other courses delivered at the institution.

#### 9.3.5 Admission policies

Admission policies shall be consistent with the institution's mission and appropriate to the educational program. The Commission shall be provided with a copy of the institution's admission policies. The policies shall define the minimum requirements for eligibility for admission to the institution and for acceptance at the specific degree level or into all specific degree programs.

#### 9.3.6 Financial resources

The institution shall have financial resources adequate to support start-up activities and sources of funds sufficient to ensure that the institution can sustain itself once students have been admitted. The Commission shall be provided with:

- (a) A current financial statement compiled or audited by an independent certified public accountant. If the financial statement is unaudited or internally generated, a copy of the most recent income tax return must also be submitted;

- (b) A budget listing all sources of income and all Educational and General (E&G) expenditures and specifying the dollar amounts and percentages for each component of the budget for the preceding three fiscal years (including the current year). A projection of expenditures and revenues for the upcoming year should be included.

9.3.7 Faculty credentials

- (a) The institution shall ensure that each full-time, part-time or adjunct instructional faculty member holds appropriate academic credentials in the program area or discipline in which the faculty member teaches. Each instructional faculty member shall either: (1) possess one or more degrees in an appropriate discipline; or (2) as an alternative to formal academic credentials, demonstrate competence by virtue of prior experience or academic training, or both, which are related to the field in which the instruction will be offered.
- (b) The institution shall ensure that each full-time, part-time or adjunct instructional faculty member holds academic credentials appropriate to the degree level of the programs or programs in which the faculty member teaches.
  1. All instructional faculty teaching in a terminal occupational/technical program leading to the Associate of Applied Science degree shall:
    - If teaching general education courses, hold a baccalaureate degree plus at least 18 graduate credit hours in the discipline taught.
    - If teaching occupational/technical courses, hold either an associate degree or qualify for a faculty appointment by virtue of scholarly or professional achievements.
  2. All instructional faculty teaching in a college transfer program at the associate level shall:
    - If teaching general education courses or in program in the liberal arts and sciences, hold a baccalaureate degree plus at least 18 graduate credit hours in the discipline being taught.
    - If teaching occupational/technical courses, either hold a baccalaureate degree or qualify for a faculty appointment by virtue of scholarly or professional achievements.
  3. An institution that offers one or more degree programs at the baccalaureate level shall ensure that at least one-third of the instructional faculty,

including at least one instructional faculty member teaching in each program, shall hold a doctoral or other terminal degree. All other instructional faculty members who teach in programs at the baccalaureate level shall either:

- Hold a master's degree; or
- Qualify for a faculty appointment by virtue of scholarly or professional achievements.

4. All instructional faculty teaching in a program at the master's, first professional or doctoral level shall either:

- Hold a doctoral or other terminal degree; or
- Qualify for a faculty appointment by virtue of scholarly or professional achievements.

- (c) An institution must employ faculty members whose highest earned degree presented as the credential qualifying the faculty member to teach at the institution is from an institution accredited by an accrediting body recognized by the U.S. Department of Education. Exceptions may be made only with the prior consent of the Commission.

#### 9.3.8 Evaluation and assessment

The institution must have a clearly defined process by which the curriculum is established, reviewed, and evaluated. The institution must provide for appropriate and regular evaluation of the institution and its program and course effectiveness including assessment of student learning, retention, graduation rates and student, graduate, faculty and employer satisfaction. The results must be used to ensure and improve quality of instruction.

#### 9.3.9 Tuition policies

- (a) A tuition policy shall be developed that provides:
  1. The total tuition for any specific program shall be the same for all persons enrolled at the same time;
  2. Tuition charges for programs shall be justifiable, effective on specific dates and applicable to all who enroll thereafter;
  3. All extra charges and costs shall be revealed to the prospective student before he or she is enrolled;
- (b) Institutions that the U.S. Department of Education has approved for eligibility for federal student financial aid must comply with the federal regulations governing institutional refunds. This information shall include but not be limited to: (1) types of federal, state, local, private and institutional aid offered to students at the institution; (2) description of the financial aid application process and the method for determining student eligibility for aid; (3) methods and schedules used to determine and disburse financial aid to students; and (4) statement of the rights and responsibilities of financial aid recipients.

### 9.3.11 Library resources

The institution shall maintain or ensure via current and formal written agreements with other libraries or from other resources that students have adequate access to a library with a collection, staff, services, equipment and facilities that are adequate and appropriate for the purpose and enrollment of the institution. Institutions offering graduate work shall provide library resources that include basic reference and bibliographic works in each field where work is offered and the major journal and serial sets for maintaining currency in each discipline. Utilization of electronic data collections should also be addressed.

### 9.3.12 Student records

- (a) The institution shall maintain records on all enrolled students. These records minimally shall include:
  - 1. Each student's application for admission and admissions records containing information regarding the educational qualifications of each regular student admitted which are relevant to the institution's admission standards. Each student record must reflect the requirements and justification for admission of the student to the institution. Admission records must be maintained for five years.
  - 2. Transcript of the student's academic work at the institution shall be retained permanently in either hard copy forms or in a database with backup.

9.4.2 Accredited by an acceptable alternative accrediting agency determined by the Commission to be appropriate to its educational purposes and programs; or

9.5 The Commission, at its discretion, may waive all or part of the reporting requirements in section 9.3 of this rule for regionally accredited institutions seeking authorization to offer credit courses or academic degree programs.

## 10. PROCEDURES FOR REVIEW OF ESSENTIAL CONDITIONS AND ACCREDITATION STATUS, PRIVATE COLLEGE OR UNIVERSITY

10.1 As the first step toward state authorization, the executive leaders of an institution seeking state authorization to operate in West Virginia as a private college or university shall consult with the Director of Academic Affairs or designee and shall submit any appropriate documents or materials related to authorization, including those which address the essential conditions and accreditation

standards in sections 9.3 and 9.4, as may be requested. The Commission staff may organize a site visit of any institutional facilities if deemed necessary.

10.2 The Commission staff shall review the documentation submitted by the institution and determine whether the institution meets the essential conditions in section 9.3.

10.3 The Commission staff shall determine whether the institution is accredited either by:

- (a) one of the six nationally recognized accrediting associations, or
- (b) an accrediting association recognized by the United States Department of Education and determined as appropriate to the institution's educational purposes and programs by the Commission.

10.4 If the institution does not hold accreditation, the Commission staff shall request submission of information verifying its accreditation status and/or evidence of "reasonable and timely progress" toward accreditation. Reasonable and timely progress toward accreditation is understood to be a status with the regional accrediting association or an acceptable alternative accrediting association recognized by the U.S. Department of Education (recognition shall be documented) that indicates that the institution has been determined to hold the potential for accreditation and is actively pursuing accreditation within the timetable established by the regional accrediting association (unless an alternative timetable has been presented to and accepted by the Commission).

10.5 Consultation, Review of Documents, and Assignment of Institutional Status

10.5.1 After the consultation and review of all documents submitted, the Commission shall assign the institution to one of the following categories:

10.5.1.1 Category I, Accredited Out-of-State Institutions

Institutions in this category are formed, chartered or established outside West Virginia and have been fully accredited by a regional accrediting association or by another accrediting body recognized by the U.S. Department of Education as approved by the Commission. An institution in Category I has its location outside West Virginia. Such institution is seeking to offer courses and/or an academic degree programs in West Virginia.

10.5.1.2 Category II, Accredited In-State with On-Site West Virginia Review
